Sustainability Leadership Forum

CHPA Hosts Successful Sustainability Leadership Forum (SLF)

- For more than a decade, CHPA has been an active member of the **Sustainability Leadership Forum (SLF)**, an inter-industry network of experts in scientific, regulatory, government, and public affairs. In July, CHPA hosted the quarterly SLF meeting with 22 attendees from 11 trade associations. CHPA's **Larisa Pavlick** and **Carlos Gutiérrez** discussed the science and uses of PFAS, the environmental and health questions around these "forever chemicals," and the policy issues arising in the states.

Dietary Supplements

CHPA Applauds the introduction of the Dietary Supplements Access Act!

- CHPA led the effort to bring all four supplement trade associations together to support legislation, which would allow dietary supplements to be eligible expenses under the Health Savings Accounts and Flexible Spending Arrangements (HSA/FSA). This will further empower millions of consumers to best determine how to use their pre-tax dollars to stay healthy and practice responsible self-care.

An Intimate Conversation with Dr. Theresa Michele, Director, FDA Office of Nonprescription Drug Products

- CHPA's June Board of Directors meeting offered the unique opportunity to engage in a robust dialogue as Dr. Michele provided updates on OTC implementation, FDA's proposed timeline for OTC reauthorization discussions between FDA and regulated industry, and Rx-to-OTC switch. Our relationship with key decision-makers is just one way that CHPA distinguishes itself as an industry leader.

CHPA Honors Congressional Self-Care Champions on Capitol Hill

- CHPA and its Board of Directors recognized **U.S. Senator Bob Casey (D-Pa.)** and **U.S. Representatives Brendan Boyle (D-Pa.), Ashley Hinson (R-Iowa), and Bob Latta (R-Ohio)**, for their fierce leadership on the healthcare issues that are important to CHPA and our members. Their efforts have helped the self-care industry make tremendous contributions on behalf of Americans.
